

CORSO[®]
sauna manufaktur

corso. designed for relaxation.

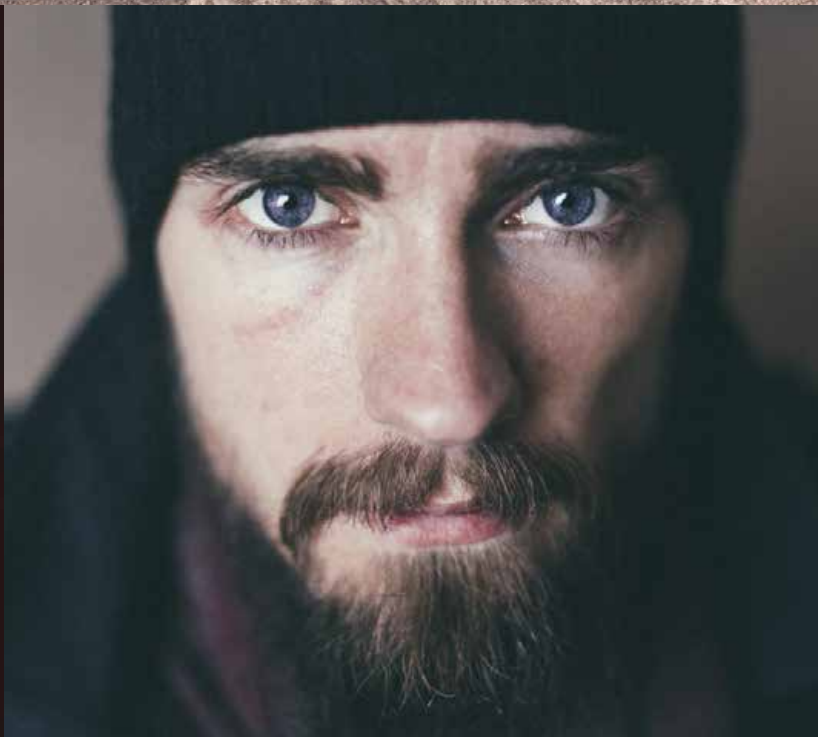

Design & Relaxation: The best decision.

BACK TO BASICS.

I let my mind wander to recharge my batteries... Everyday life recedes into the distance as I immerse myself in complete relaxation. Surrounded by wood, I feel safe and secure in the gentle warmth of the sauna. Nature envelops me and I let go completely. The fresh scent of wood transports my thoughts to a lush green forest...

After the sauna, pure refreshment awaits me; my body feels cleansed, invigorated and rested. I enjoy the refreshment, my skin begins to glow rosily. Is there a more beautiful way to do something for yourself and your health?

'I have a dream: my own designer sauna. For relaxing hours at home. After work, after sport. And for my health, for a strong immune system. Custom-made to suit my style. My own dream sauna.'

Your sauna is a purchase for life. At corso, your sauna is custom-made to your specifications. – A piece of designer furniture that matches your interior style and complements your space. Quality crafted with passion and attention to detail. Made in Germany.

corso. designed for relaxation.

A GREAT SENSE OF DESIGN.

What makes corso special? Our passion for wood and saunas. And our flair for aesthetic designs. If you are not looking for an off-the-shelf sauna, but a truly unique sauna tailored to your wishes, then you are in the best (relaxing) hands with us. Be inspired by our ideas for your

sauna: we will work with you to create the best solution for your space. We select the best wood, paying attention to the grain and every detail in order to preserve the natural beauty of the wood and emphasise it with sophisticated design. 'Hand on it!': Genuine, honest master craftsmanship, made in Germany. Since 1968.

HIGH-END QUALITY: HANDCRAFTED.

corso is one of Europe's most renowned sauna manufacturers. Our dedicated team creates sauna and spa solutions for private customers as well as hotels, fitness studios, sauna facilities and public baths. Always unique, always tailor-made.

Numerous builders have already realised their dream sauna together with corso. Whether they are sauna enthusiasts 'from next door', celebrities or professional athletes – our customers can sense it: we love wood and our passion is your sauna. When will you be inspired...?

Which sauna or 'type of bathing' is right for me...?

FINNISH SAUNA

The Finnish sauna is the classic and oldest type of sauna. The temperature is approx. 80–110°C, and the humidity is 20%. Infusions briefly increase the humidity to 30% for a strong heat stimulus. This type of sauna has the most intense effect on the immune system and other aspects of health.

BIO-SAUNA

The 'light' sauna sums it up best: the sauna is heated to 50–60°C with 40–50% humidity. This warm, humid air bath allows for a gentler sauna experience, placing significantly less strain on the circulation. The bio sauna is recommended for sauna novices, children and older people.

Colour-changing light elements transform the sauna into an oasis of well-being. Breathing becomes easier, and the sauna has a cleansing and stimulating effect. Any Finnish sauna can be converted into a bio sauna by installing a combination heater with a vaporiser. However, it is still possible to use the sauna as a Finnish sauna if desired.

INFRARED CABIN & SAUNA WITH INFRARED

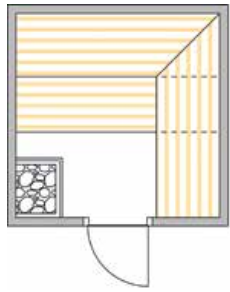

The temperature in the infrared cabin is between 38 and 50°C. Unlike in a sauna, the body is not heated by the ambient air, but by infrared radiation. The rays heat the skin, from where the heat spreads throughout the body.

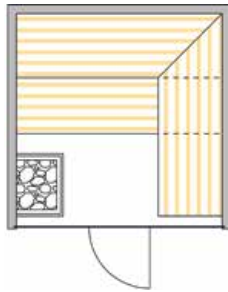

STEAM BATH | HAMMAM

The temperature is 40–48°C, and the humidity is 100%. Steam baths are gentle on the circulation and very good for muscle tension and respiratory diseases. Even hay fever can be alleviated by strengthening the immune system with steam baths.

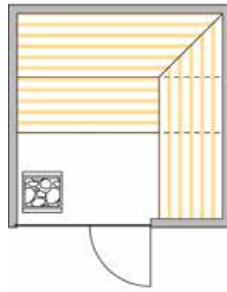

How do I plan my sauna...?

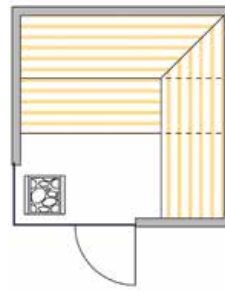

- Sauna with glass door

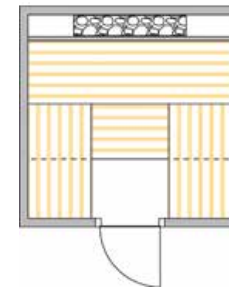

- Sauna with glass door
- Door in the centre
- Wall-mounted oven

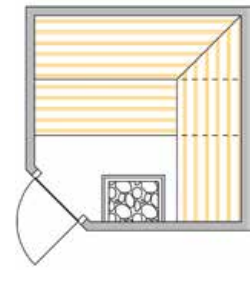

- Sauna with glass door
- Fixed glass element
- Free-standing stove

- Sauna with glass element across the corner, glass door attached to wood
- Free-standing stove

- Sauna with glass door
- Back wall stove

- Sauna with corner entry
- Wall-mounted stove

It's simple: WE DO IT FOR YOU.

Talk to us about your wishes: give us a call or visit our showrooms. We will be happy to advise you on your 'relaxation project'! The focus is on you: do you prefer to lie down or sit up in the sauna? How tall are you? Where should the sauna be located? We take plenty of time to

work with you to find the best solution. Our planners then design a solution for your very own dream sauna. Whether you have a sloping ceiling, an existing window, a bathroom or a basement room: we will create the ideal sauna for your space and build your customised cabin with centimetre

precision. The sketches above are only rough suggestions of what the floor plan could look like. We look forward to working with you to define the best design for your project. So that you can soon relax deeply in your private wellness area.

Nordic spruce as interior cladding, combined with straight, simple sauna benches in light, knot-free aspen.

Complete sauna in light aspen. Benches with strongly rounded front edges. Ideal sauna wood with a very uniform appearance.

Honey-coloured, straight hemlock benches combined with a back panel made of fine oak veneer as a special eye-catcher.

Sauna loungers in caramel-coloured thermo-aspen, walls in high-quality, extra-strong real wood veneer made of walnut.

Sauna in reclaimed wood. Loungers made of thermo-aspen with straight edges and shadow gaps.

WHICH WOOD DO YOU LIKE...?

Wood is at the heart of every sauna design. It is natural, cosy, durable and authentic. And we only use the very best grades for your sauna. The colour, the unique grain and the unmistakable scent – all this makes our woods something special, a material with its own unique character.

We are happy to show you a small selection of the best and most popular corso sauna woods here. They withstand high temperatures without overheating, resinating or warping. This means they will give you many years of enjoyment. We source the wood for your corso sauna from the endless expanses of Canada, the Scandinavian Arctic Circle or the

deep forests of Europe. There are more than 100 varieties, but they all have one thing in common: they are planted in an environmentally conscious manner, felled in a species-appropriate way and stored and dried gently. Endangered species and tropical woods are taboo at corso. Discover the diversity of our woods – and choose your favourite.

Best 'ingredients' for your sauna.

SAUNA HEATER

Whether you are looking for a stylish designer heater or a compact sauna heater, from a purely Finnish heater to a combination heater with a vaporiser for a bio sauna: we will work with you to find the right 'sauna heater'. Your sauna requires a 400-volt high-voltage connection. Please contact us at an early stage so that the power cable can be laid 'invisibly' in the screed if necessary.

SAUNA CONTROL

From simple switchgear to high-tech touchscreens: we offer you the right quality solution from EOS. Making controlling your sauna child's play.

SMART HOME: SAUNA START VIA APP

The sauna can be integrated into your smart home system (e.g. Loxone/KNX) so that you can conveniently start it while on the move. We would be happy to advise you on the options available.

LIGHTING

With our lighting concepts, your sauna will have an impact on the entire room, e.g. through indirect lighting with LED elements behind the backrest in warm white (also available with colour-changing light as an option).

INFRARED RADIATOR

Soothing warmth for your back: we are happy to install an infrared heater as an 'extra' in your sauna – for that extra bit of back relaxation...

CONSULTING

Give us a call!
We would be happy to advise you on your project:

DOOR HANDLES, DOOR HINGES...

...Glass elements & more:
Together, we will select the best designs to suit your interior style – for your perfect designer sauna.

ACCESSORIES

The right accessories complete your sauna: from buckets and ladles to high-quality, natural corso sauna fragrances. We have a wide selection available for you.

100% real projects. 100% real photos.

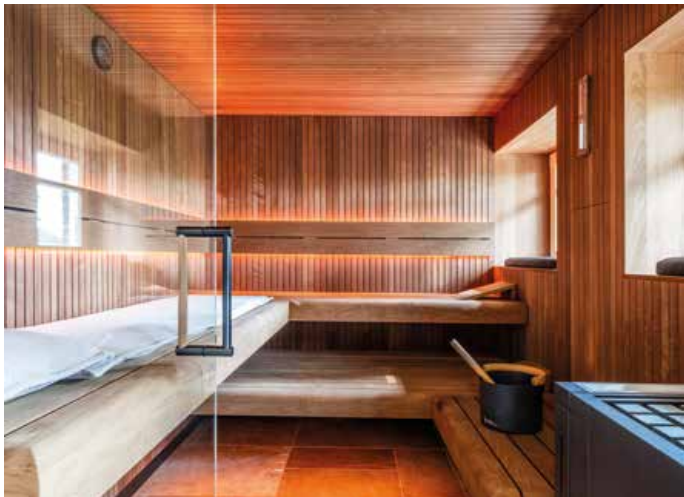

On the following pages, we present our portfolio. You will only see real images here; we do not work with computer-generated renderings or AI images. The projects are as real as the reviews from our customers on Google and other sites, with around 98% satisfaction.

**Sauna builders?
Dream realisers. Our passion.**

corso. designed for relaxation.

At corso, there are no 'off-the-peg' models. We manufacture your sauna or steam bath entirely according to your wishes. Be inspired by our most beautiful projects: Which designs do you like best? Talk to us so that we can create an idea for your individual dream sauna. High-end quality and pure design, lovingly crafted by hand. When can we inspire you...? [corso has received multiple awards for its special sauna designs and innovations, including the 'GOLDEN WAVE' from Schwimmbad & Sauna magazine.]

We do not work with price lists, as each project is planned and built to measure.

Please send us a floor plan or a small (hand-drawn) sketch, and we will prepare a quote for your 'relaxation project'.

SAUNA LINE: NORDLICHT

NORDLICHT [Skandinavic. Originally.]

The NORDLICHT sauna range is a freely planned sauna made from typical sauna profile wood. Available in a minimalist classic design or combined with design elements. Would you like to install the sauna in a sloping ceiling or

in a niche? No problem: we plan down to the last centimetre! The type of wood, glass, sauna benches, stove and accessories can be varied to customise your dream sauna.

SAUNA LINE: PURE

PURE [Straightforward. Modern. Purist.]

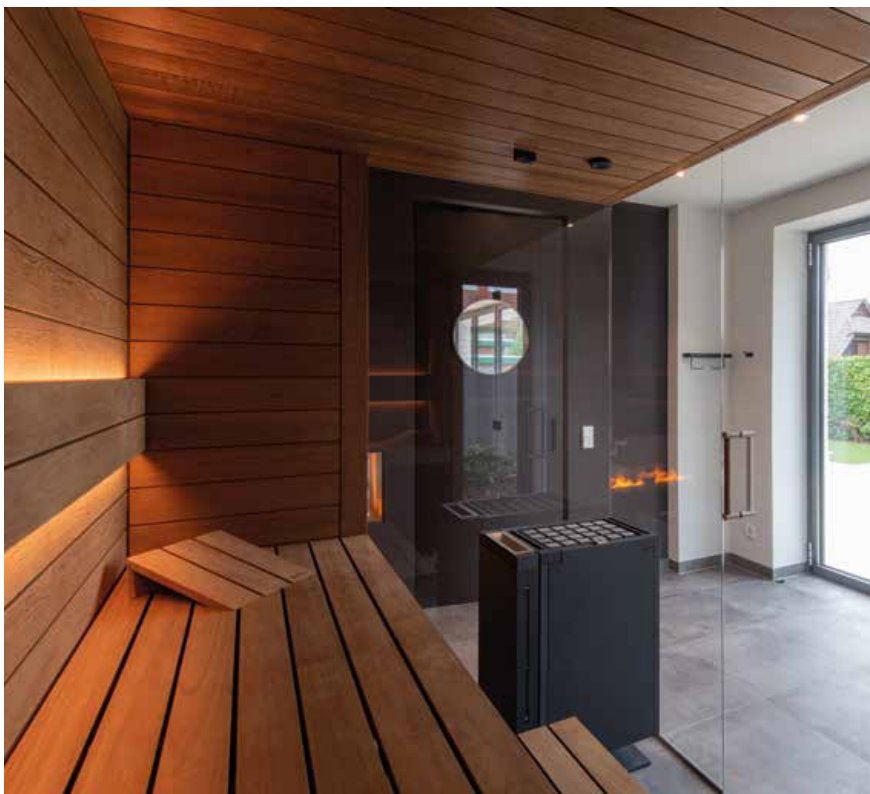

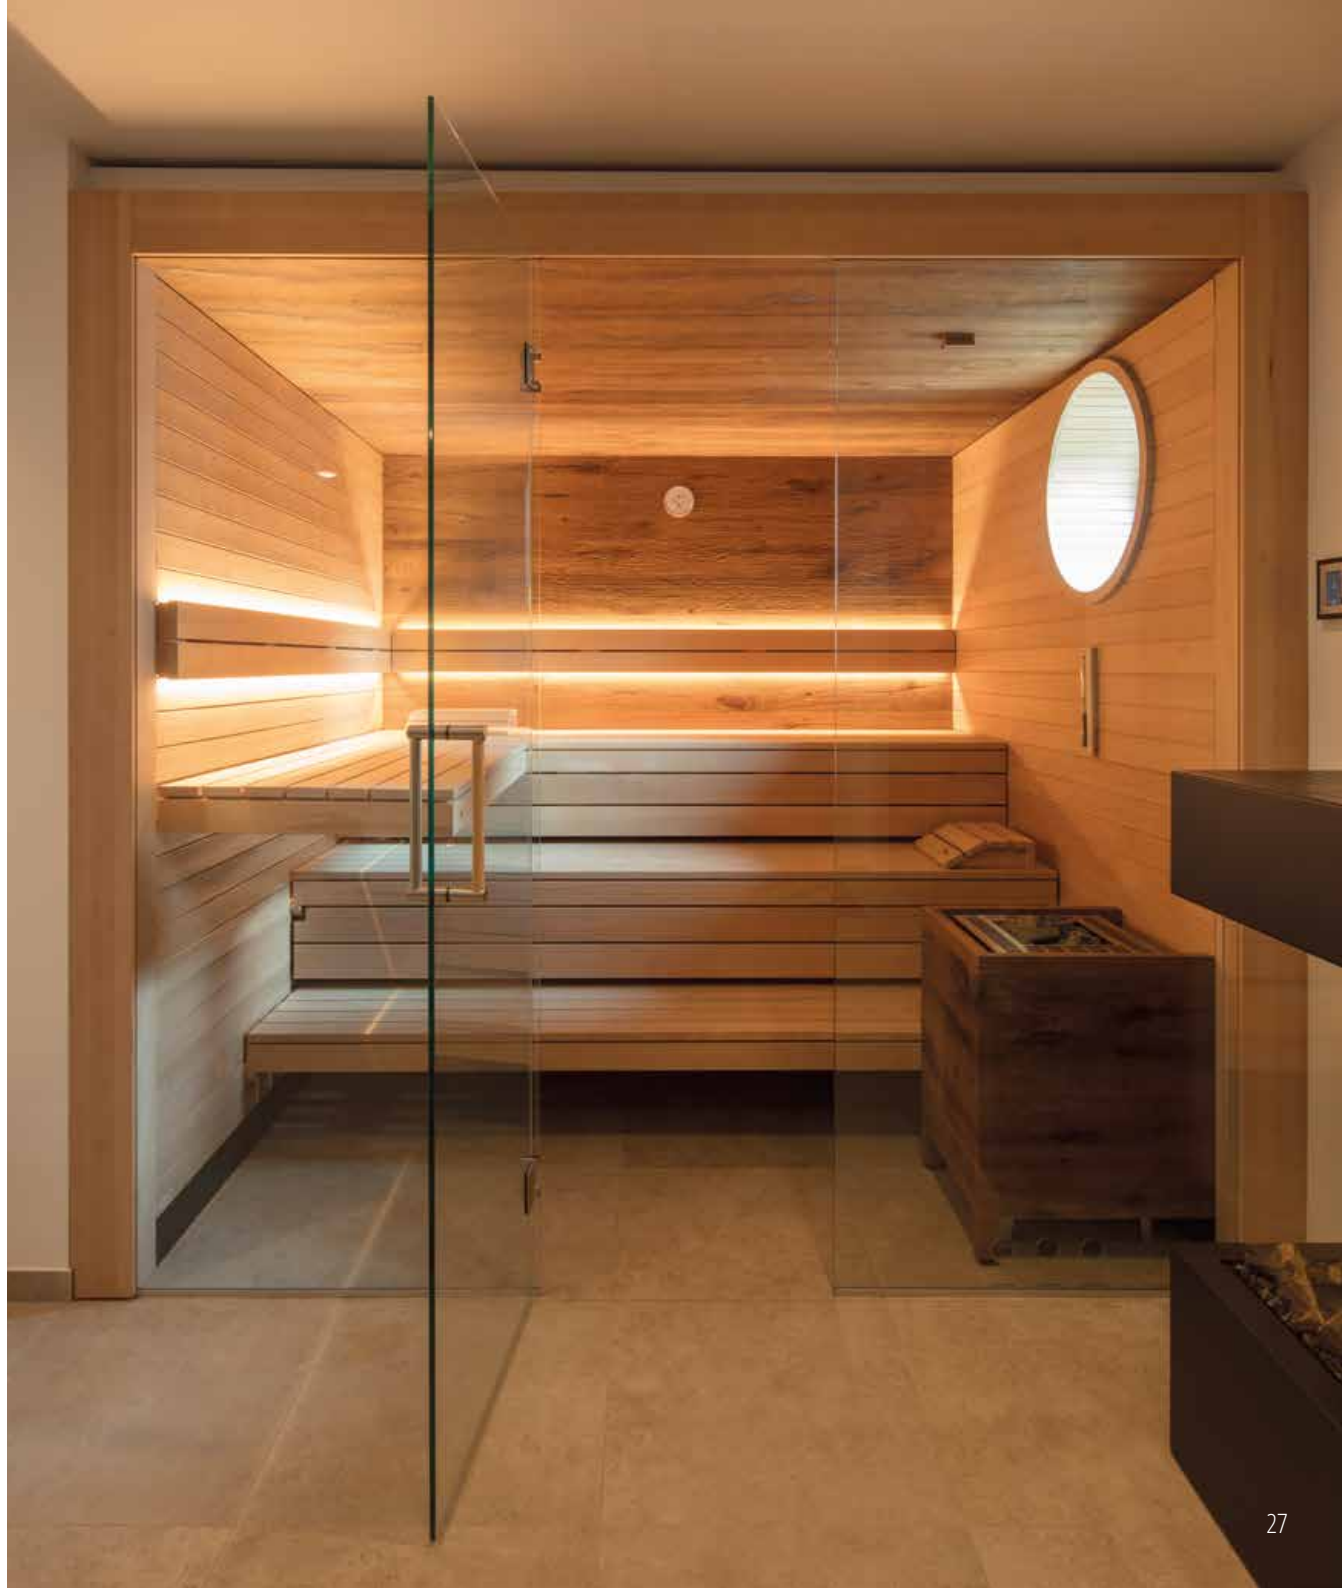

PURE impresses with its clean lines and modern design. Each sauna is freely planned and built according to your wishes. Its linearity is characteristic: light aspen with a double groove profile and

contrasting shadow gap or sharp-edged (i.e. not rounded) profiled wood: a timeless sauna design. PURE is perfectly complemented by glass elements, high-quality lighting design and floating benches.

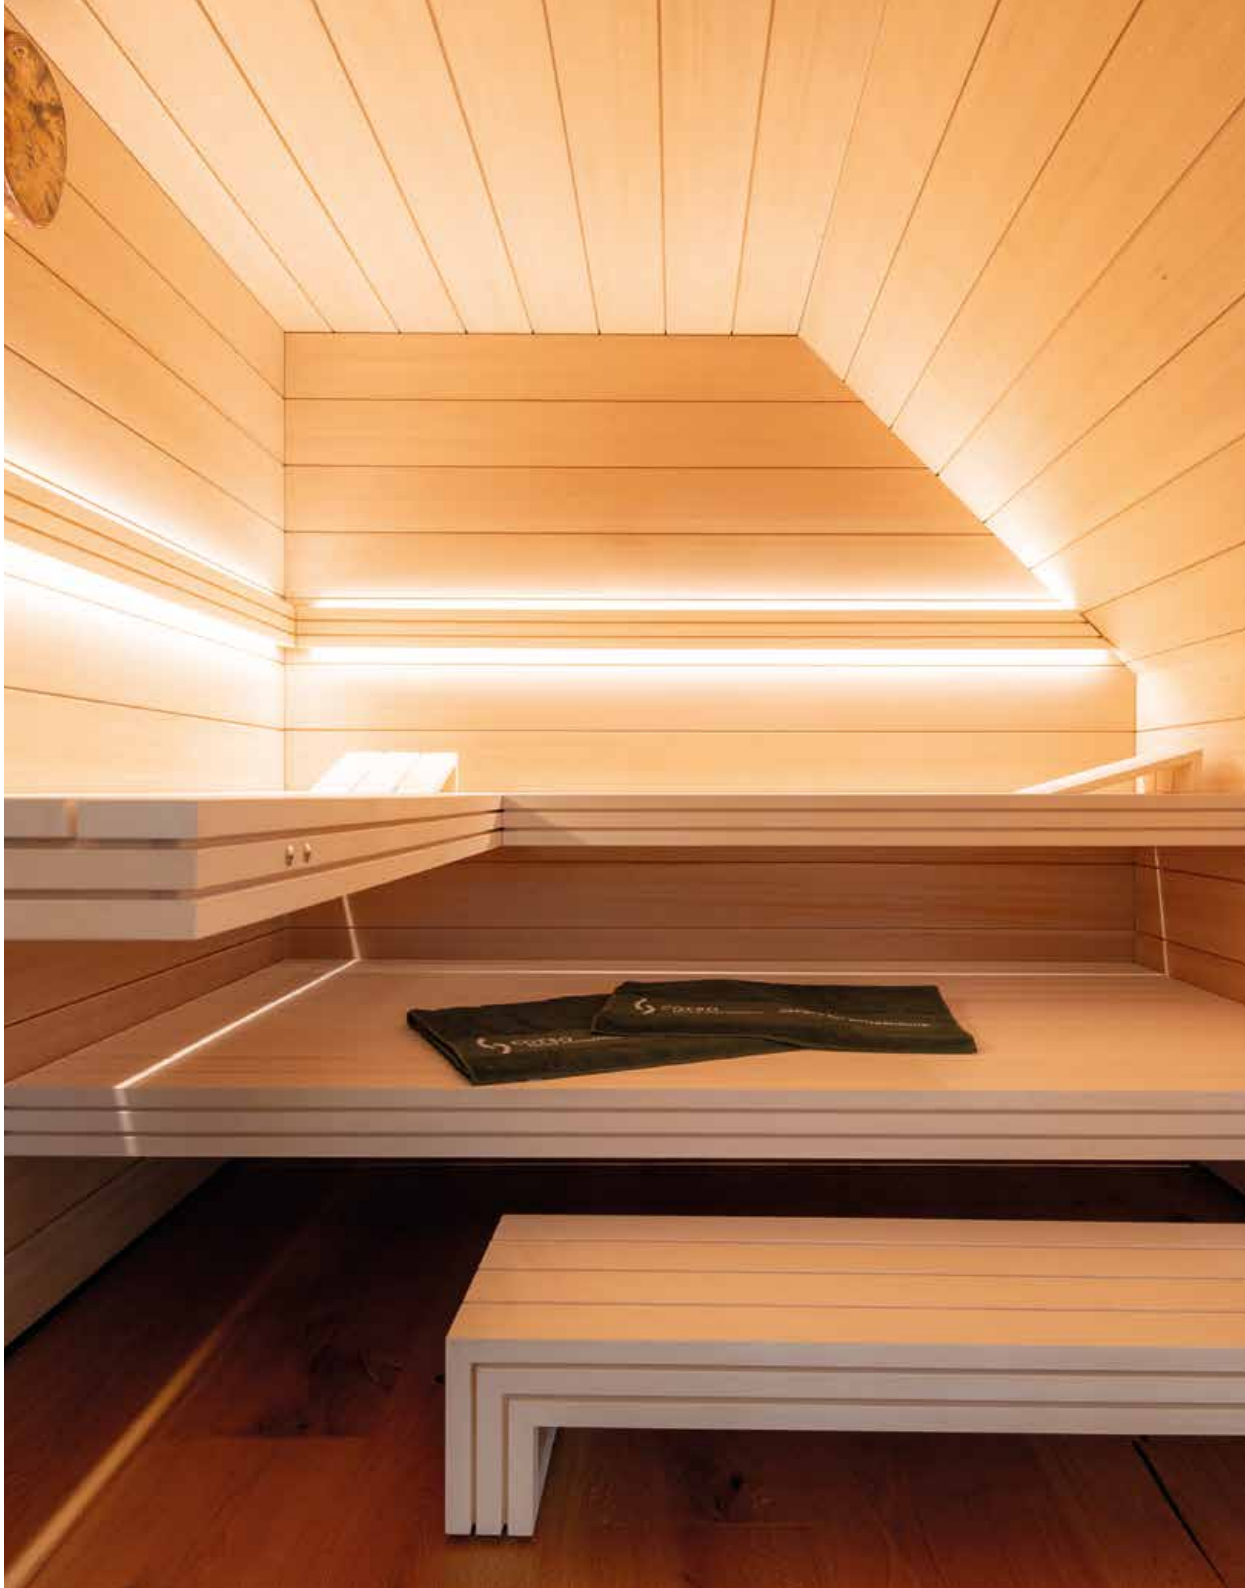

LOUNGE [Timeless. Elegant.]

Every LOUNGE sauna is unique, an elegant piece of furniture: instead of the 'typical sauna' profiled wood, the interior of this premium sauna line is designed with high-quality real wood veneer that has been specially

developed for sauna construction. This gives it the look of a chic piece of designer furniture. Everything is planned freely - regardless of whether the sauna is to be installed in the bathroom, spa or living area.

SAUNA-LINIE: CHALET

CHALET [Reclaimed wood sauna in 'alpine chic' style.]

The CHALET line has its own unique character: the rustic and carefully restored old wood comes from Austrian mountain huts that have been exposed to sun, wind and rain for decades.

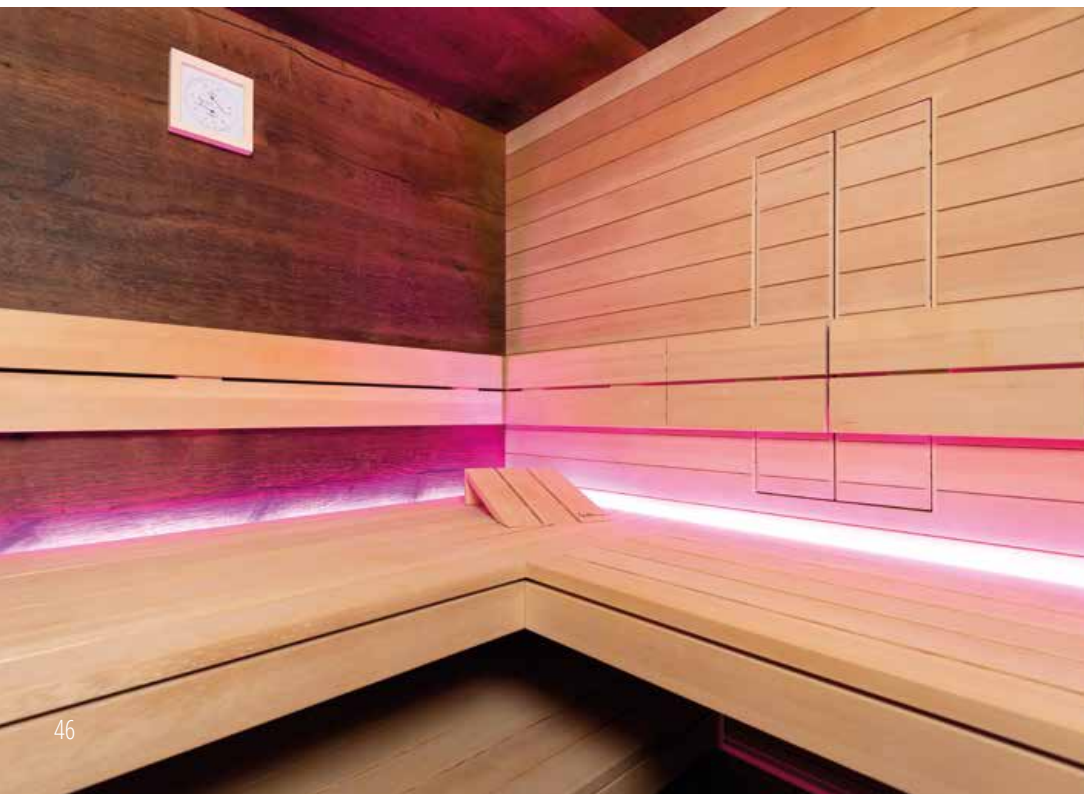

The deliberate combination with glass and LED lighting successfully translates the cosy wood into a modern design. The result is a sauna with a strong character and Alpine cottage charm.

INFRARED CABIN/-SAUNA

INFRARED [The gentle warmth.]

Infrared – pleasant warmth, just like gentle sunbathing. We can design it for you as you wish: either as a pure infrared cabin or as a sauna with additional built-in infrared heaters. This means that

every corso sauna can be additionally equipped with one or more infrared heaters. This is often referred to as an infrared sauna (further information on page 7).

Foto: Sommerhuber

STEAM BATH

STEAM BATH [Modern. Individually tailored.]

The warm steam relaxes body and mind: pure balm for the respiratory tract and the soul. We plan and design your steam bath completely freely: whether with granite, marble, ceramic, mosaic...

To give your hammam a particularly light feel, we like to work with indirectly lit, floating benches – a corso speciality. Or would you prefer a starry sky? Anything is possible: it's all 'à la carte'.

OUTDOOR SAUNA

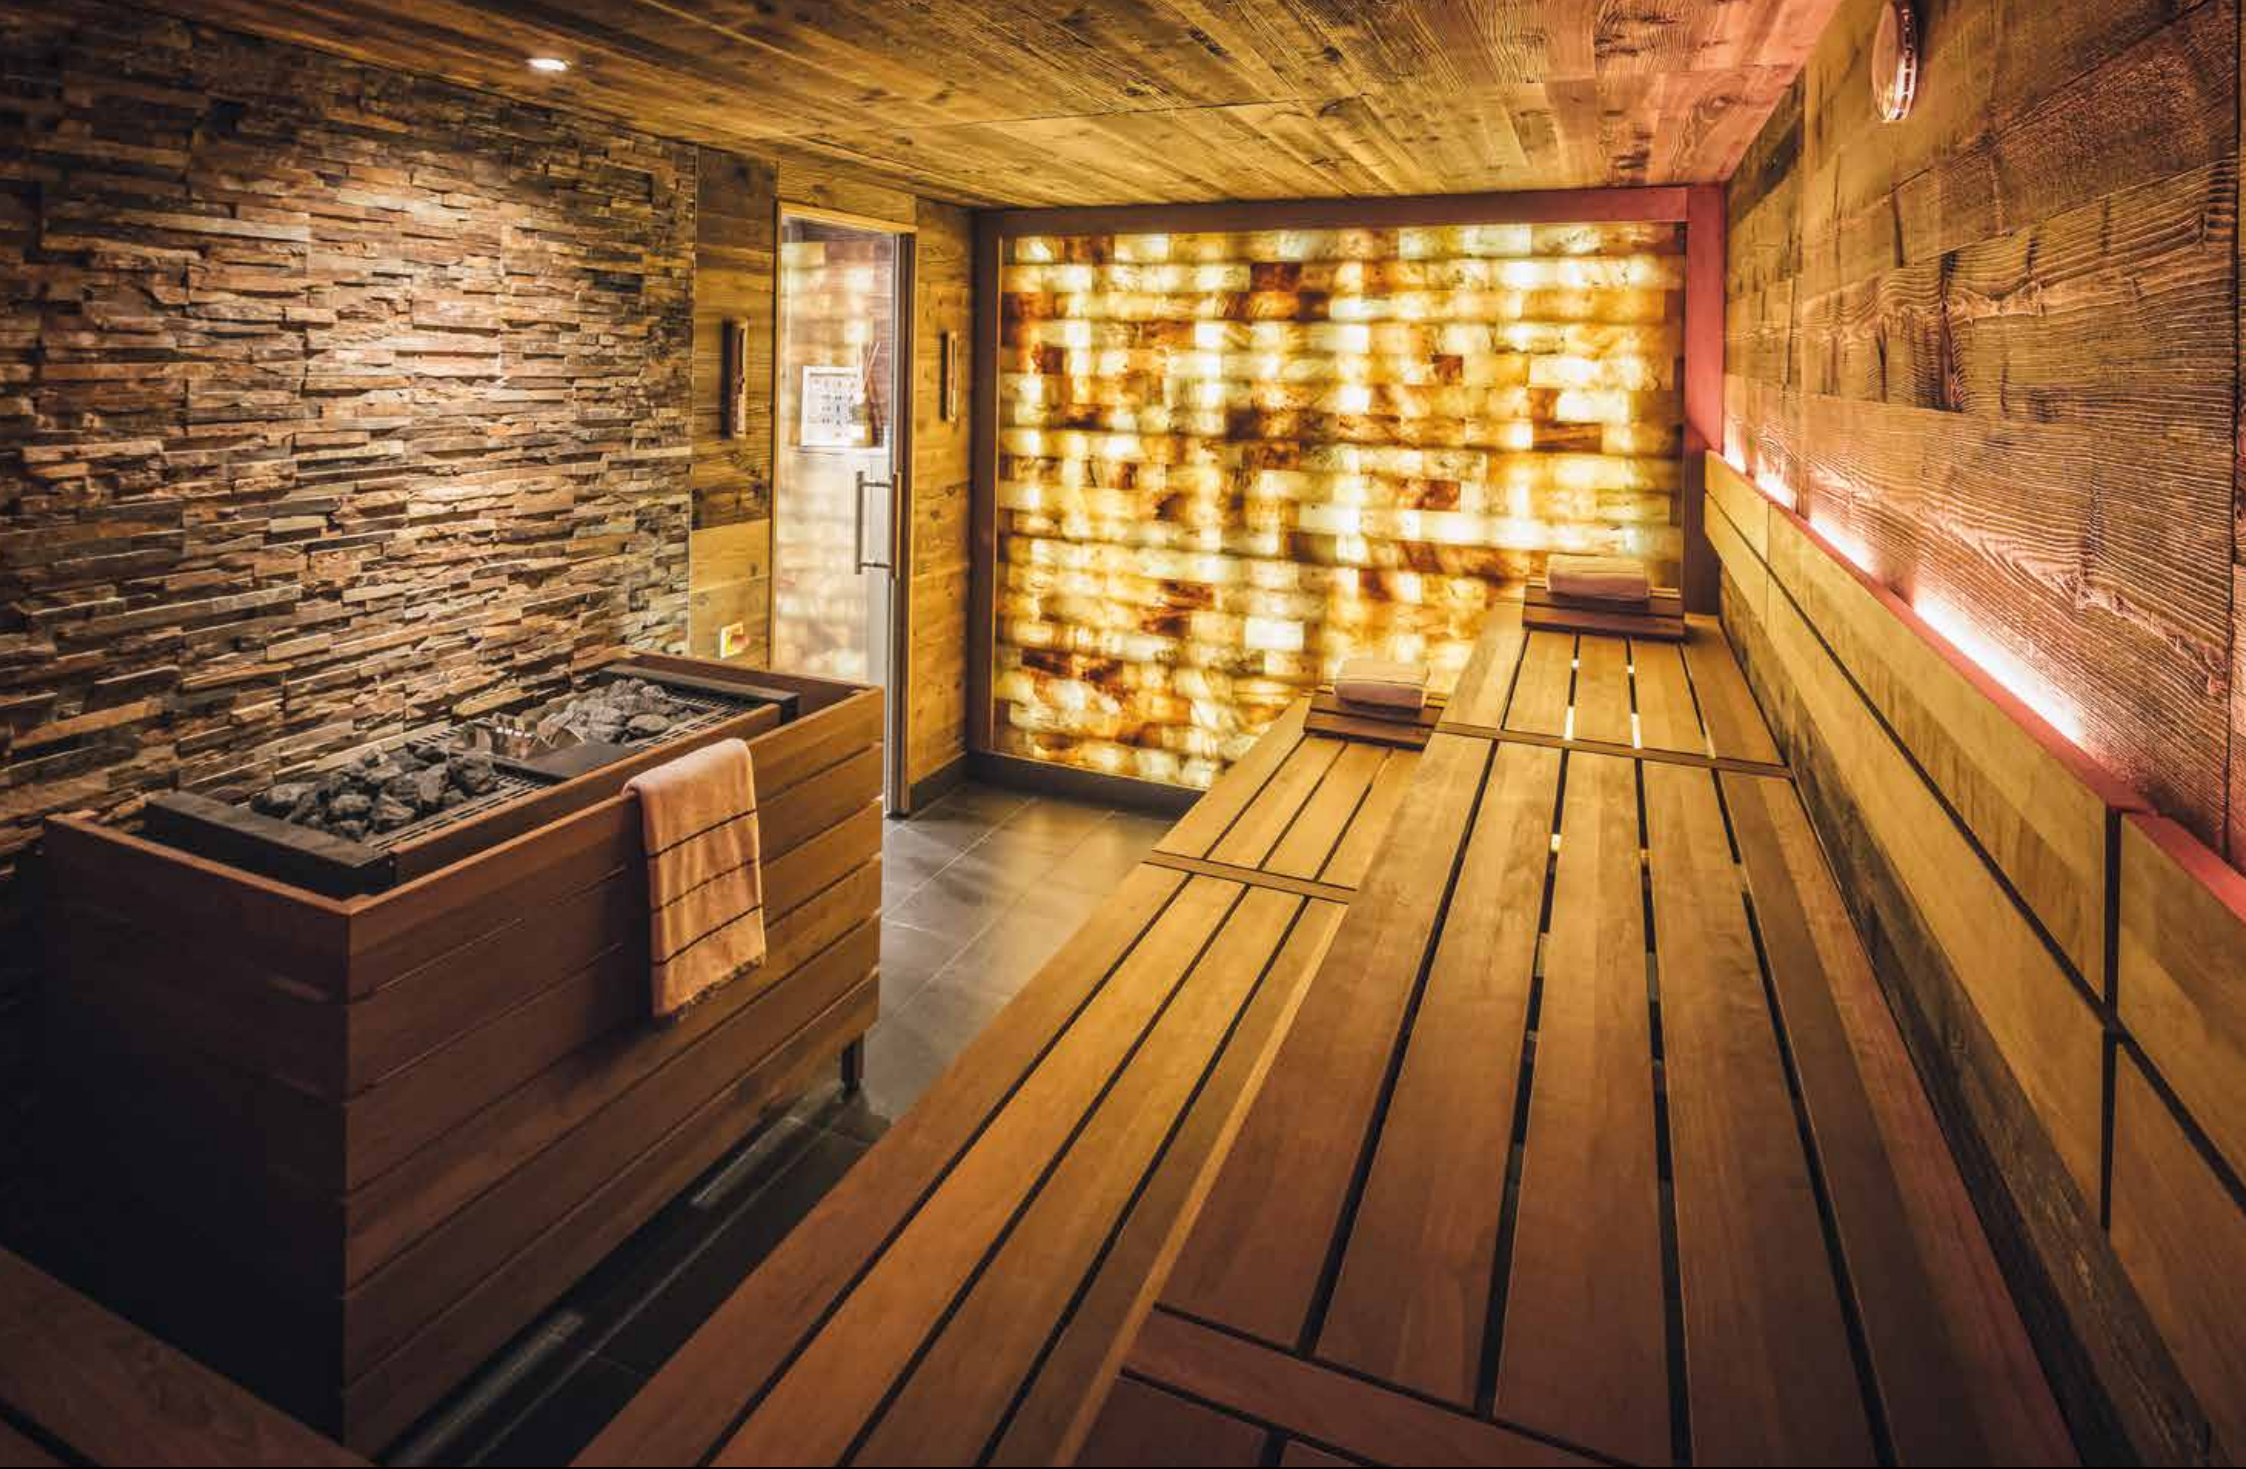

Let yourself go and enjoy nature...

Enjoying a sauna in your own garden is pure relaxation – surrounded by greenery. Be inspired by our ideas: whether in the garden or on the roof terrace, we create tailor-made solutions,

from log cabin saunas to designer outdoor saunas. Delivery is ready-assembled by mobile crane. **Please feel free to request our outdoor sauna catalogue.**

corso. Perfect for professionals.

Let your guests find their balance.
With a tailor-made professional spa from corso.

The wellness area of your establishment is your very own calling card. Offer your guests that little bit extra in terms of well-being that makes you unique: with a spa from corso sauna manufactory. Whether you run a family guesthouse or a designer hotel, a fitness centre or a public baths – benefit from our more than 50 years of experience in the field of public saunas and steam baths. We support you with our ideas without losing sight of economic efficiency. On request, our specialist planners will draw up complete SPA plans for you and advise you on the selection of the best technology for low-maintenance systems – including, of course, in the area of sauna renovation. We would be happy to provide you with a fixed-price quote and guarantee the on-time installation of your system. We offer our services worldwide. Since 1968.
